Gentlemen and Gentlewomen,

RIN 1210 – AB32

Please retain the right to use stock options in IRAs. I have been using both Call and Put options for both my and my mothers IRAs for safe income trades. Without the ability to use options for income, the risk of our portfolios goes considerably higher. While there are speculative uses for options, I don't believe they are currently allowed in IRAs which is fine. I have only the desire to offset risk by getting safe income from these investment vehicles.

Thank you for your consideration!
